

Vigil of Prayer for Peace - August 6-9, 2022

The idea of the continuous vigil in remembrance of the bombing of Hiroshima and Nagasaki was born in the context of the Community of Sant'Egidio in New York City. The vigil became an actual possibility through the contribution and collaborations with friends and partners. We are thankful to **Community of Sant'Egidio of Sant'Egidio** worldwide ([here](#)) that has been committed to peace for years and especially after the Prayer for Peace in Assisi that has been continued each year since ([here](#));
